

Federal Communications Commission

§ 21.920

prior to the day the application or notification for the booster station is filed. A booster station shall not be required to protect from interference facilities proposed on or after the day the application or notification for the booster station is filed.

(g) Where an application is granted under paragraph (d) of this section, if a facility operated pursuant to that grant causes harmful, unauthorized interference to any cochannel or adjacent channel facility, it must promptly remedy the interference or immediately cease operations of the interfering facility, regardless of whether any petitions to deny or for other relief were filed against the application during the application process. The burden of proving that a high-power MDS signal booster station is not causing harmful, unauthorized interference lies on the licensee of the alleged interfering facility, following the filing of a documented complaint of interference by an affected party.

(h) In the event any MDS or ITFS receive site suffers interference due to block downconverter overload, the licensee of each non-co/adjacent channel signal booster station within five miles of such receive site shall cooperate in good faith to expeditiously identify the source of the interference. Each licensee of a signal booster station contributing to such interference shall bear the joint and several obligation to remedy promptly all interference resulting from block downconverter overload at any ITFS registered receive site or at any receive site within an MDS or ITFS protected service area applied for prior to the submission of the application or notification for the signal booster station, regardless of whether the receive site suffering the interference was constructed prior to or after the construction of the signal booster station(s) causing the downconverter overload; provided, however, that the licensee of the registered ITFS receive site or the MDS or ITFS protected service area must cooperate fully and in good faith with efforts by signal booster station licensees to prevent interference before constructing the signal booster station and/or to remedy interference that may occur. In the event that more than one

signal booster station licensee contributes to block downconverter interference at an MDS or ITFS receive site, such licensees shall cooperate in good faith to remedy promptly the interference.

[63 FR 65109, Nov. 25, 1998; 64 FR 4054, Jan. 27, 1999, as amended at 64 FR 63736, Nov. 22, 1999; 65 FR 46619, July 31, 2000]

EFFECTIVE DATE NOTE: At 65 FR 46619, July 31, 2000, §24.913 was amended by revising paragraphs (b) introductory text, (b)(8), and (e)(4)(ix). These paragraphs contain information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 21.914 Mutually-exclusive MDS applications.

Notwithstanding the provisions of §21.31 (b)(2)(i) and (ii) of this part, to be entitled to be included in a random selection process or to comparative consideration with one or more conflicting applications, an application for frequencies at 2150-2162 MHz, 2596-2644 MHz, 2650-2656 MHz, 2662-2668 MHz, or 2674-2680 MHz must be received by the Commission in a condition acceptable for filing on the same calendar day as the first of the conflicting applications is received by the Commission in a condition acceptable for filing.

[55 FR 46012, Oct. 31, 1990, as amended at 56 FR 57819, Nov. 14, 1991]

§ 21.915 One-to-a-market requirement.

Each applicant may file only a single Multipoint Distribution Service application for the same channel or channel group in each area. The stockholders, partners, owners, trustees, beneficiaries, officers, directors, or any other person or entity holding, directly or indirectly, any interest in one applicant or application for an area and channel or channel group, must not have any interest, directly or indirectly, in another applicant or application for that same area and channel or channel group.

[58 FR 11799, Mar. 1, 1993]

§ 21.920 Applicability of cable television EEO requirements to MDS and MMDS facilities.

Notwithstanding other EEO provisions within §1.815 of this chapter and
